# Assembly and Machine Language

## Wikipedia Project

**Deadline: 10.11.97**

You can get extra points (at most 1) by translating one or two Wikipedia pages to Persian. Do as follows if you are interested:

1. Contact one of the TAs to register and receive your articles.
  2. Create a Wikipedia account under your own name and email. The Persian pages you create must be under your name.
  3. Translate the assigned Wikipedia article(s) to Persian. This video teaches how to do so <https://www.youtube.com/watch?v=nHTDeKW3hV0>
  4. Your translation must be complete before **10th of Bahman**. Articles completed after this date will not be graded.
  5. After that date, until the day you present your project to the TAs, you need to fix the issues pointed out by Wikipedia patrollers.
  6. Present the translation to the TAs at the time when you deliver your final project.
    - a. The changes must be logged under your username in the history of the article.
    - b. The translation must be of good quality. Your translation will be evaluated the TA. For each article, you will receive a score between 0 and 0.5. Low-quality articles are disregarded.
- You may translate two pages at most. So, you can get a maximum of 1 point.
